Professional Summary

Enthusiastic Software Engineering student with a strong foundation in front-end programming and a passion for exploration and learning. Proven ability to adapt quickly and collaborate effectively in team environments. Experienced in using AI tools and familiar with multiple programming languages.

Education

Bachelor of Science in Software Engineering

Faculty of Informatics Engineering, Homs University, Homs, Syria | Sep 2020 - Sep 2025

High School Diploma

Muhsen Abbas secondary school - Homs, Syria 2020 , Average: 93%

Work Experience

Co-Founder & Frontend Lead

Apex Solutions | Oct 2025 – Present

- Co-founded a digital solutions team, establishing the technical foundation and project workflows for freelance web development.
- Leading the frontend development using React.js and Chakra UI , focusing on creating scalable component architectures and reusable UI libraries.
- Managing technical direction by implementing Git-based collaboration workflows and ensuring seamless API integration with the backend.
- Managed the deployment process of the frontend application using Vercel, including custom domain configuration and SSL setup.

Front-End Trainee

Darrebni Company, Homs, Syria | Apr 2024 – Oct 2024 (6 Months)

- Completed 250 hours of training in front-end development, specializing in JavaScript (ES6+), CSS, Bootstrap, TypeScript, GitHub and React.
- Developed "Bug Bounty Syria" as a final graduation project: A dual-sided platform connecting security researchers with companies to identify and fix software vulnerabilities.
- Received a recommendation letter for outstanding performance and distinction in the training program.

Skills

Programming Languages: C++, Java, C#, MATLAB, Python.

Web / Frontend: JavaScript, TypeScript, React, Bootstrap, CSS.

Tools & Technologies: Git / GitHub (CI/CD), MySql, Figma, AI Tools, Microsoft Office, Odoo, PWA .

Soft Skills: Quick Learner, Adaptability, Team Collaboration ,Problem solving.

Languages:

Arabic : Native

English : Upper-Intermediate / Advanced (B2/C1 level)

German : Intermediate (B1 level - Exam candidate)

Projects

National Diabetes Program | [React.js, Mantine UI , Go, AI] Feb 2025 - Oct 2025

- Developed a nationwide healthcare platform to centralize patient data and medication records across multiple medical centers.
- Built dynamic dashboards using React.js to visualize complex medical data, charts, and AI-driven health forecasts.
- Implemented features for patient self-monitoring, including medical consultation modules and automated appointment scheduling.
- Collaborated on integrating the frontend with a high-performance Go-lang backend to handle extensive database processing.

Bug Bounty Syria | [React.js, Mantine UI] Jul 2024 - Oct 2024

- Engineered an integrated platform connecting security researchers with companies to identify and patch system vulnerabilities.
- Designed and developed highly intuitive interfaces using Mantine UI, ensuring a seamless user experience (UX) for technical users.
- Ensured full responsiveness across all devices, focusing on accessibility and clean component architecture.
- Streamlined the reward and evaluation workflow through a secure and simplified frontend interface.

Additional Information

- Hands-on experience in computer hardware and software repair acquired over several years.
- Passionate about programming and continuous learning.
- Actively developing skills in front-end technologies and exploring new tools.
