Homs - Syria (Open to Relocation) | DOB: 18.06.2002

Work Experience

Apex Solutions Oct 2025 – Present

Full-Stack Engineer & Founder

- Founded and developed a full-stack digital solutions platform focused on scalable web applications and SaaS solutions.
- Built and deployed full-stack infrastructure using React.js, TypeScript, Node.js, Express, and MongoDB Atlas with secure and scalable API architecture.
- Optimized frontend performance using lazy loading and code-splitting, achieving 85%+ performance and 100% best practices on Lighthouse.

National Diabetes Program Feb 2025 - Oct 2025

Software & Front-End Engineer

- Developed scalable React.js & PWA interfaces for patients, healthcare centers, and administration teams.
- Digitized healthcare workflows, reducing paper-based processes by 90%+ through electronic records and appointment management.
- Improved operational efficiency by up to 75% using automated scheduling, medication tracking, and real-time SSE notifications.
- Built healthcare dashboards for medication inventory management, patient analytics, and centralized medical data access across centers.
- Integrated AI-assisted patient support and collaborated with Go backend services for large-scale, real-time healthcare data processing.

Darrebnri Company | Homs, Syria Apr 2024 – Oct 2024

Top-Performing Front-End Trainee

- Completed 250 hours of training in front-end development, specializing in JavaScript (ES6+), CSS, Bootstrap, TypeScript, GitHub and React.
- Developed “Bug Bounty Syria” as a final graduation project : a responsive React.js (Mantine UI) – based platform designed to simplify vulnerability reporting and communication between companies and security researchers.
- Received a recommendation letter for outstanding performance and distinction in the training program.

Education

Bachelor of Science in Software Engineering | Homs University
Sep 2020 - Oct 2025
Cumulative GPA : 76,98% | Top 10%

High School Diploma | Muhsen Abbas Secondary School
Sep 2019 - Aug 2020
Grade: 93,17% | 2702/2900

Professional Summary

Software & Frontend Engineer specializing in React.js and Next.js, focused on building scalable, high-performance web applications and PWAs. Experienced in developing nationwide healthcare platforms, AI-assisted systems, and modern SaaS solutions within Agile/Scrum environments. Certified in German (B1 ÖSD) with upper-intermediate English proficiency (B2).

Skills

Web / Frontend & Backend
