

# Mustafa Ahmad Hasan

[mustafahasn002@gmail.com](mailto:mustafahasn002@gmail.com) | +963 981 554 251 | Homs - Syria (Open to Relocation)

DOB: 2002-06-18 | [LinkedIn.com/in/Mustafa](https://www.linkedin.com/in/Mustafa) | [Github/Mustafa](https://github.com/Mustafa) | [MustafaHasan.site](https://MustafaHasan.site)

## Professional Summary

---

**Software & Frontend Engineer** specializing in React.js and Next.js to build scalable, high-performance web applications. Proven expertise in architecting nationwide platforms, notably the National Diabetes Program, while leading technical workflows in Agile/Scrum environments. Certified in German (B1 ÖSD) with Upper-Intermediate English (B2 level). Passionate about AI & LLM integration and solving complex architectural challenges.

## Work Experience

---

### [Apex Solutions](#)

Oct 2025 – Present

#### Lead Software Engineer

- Founded and engineered a digital solutions platform, managing the entire lifecycle from architecture to deployment with a focus on launching high-performance, scalable SaaS applications.
- Architected scalable frontend solutions using modern frameworks, prioritizing performance optimization, clean code standards, and seamless user experiences.
- Direct all technical operations, overseeing API integrations and secure deployment workflows to ensure reliable, industry-ready application launches.

### [National Diabetes Program](#) (National Scale Project)

Feb 2025 - Oct 2025

#### Software Engineer

- Developed a nationwide healthcare platform to centralize patient data and medication records across multiple medical centers.
- Built dynamic dashboards using React.js to visualize complex medical data, charts, and AI-driven health forecasts.
- Implemented features for patient self-monitoring, including medical consultation modules and automated appointment scheduling.
- Collaborated on integrating the frontend with a high-performance Go-lang backend to handle extensive database processing.

### [Darrebni Company](#) | Homs, Syria

Apr 2024 – Oct 2024

#### Top-Performing Front-End Trainee

- Completed 250 hours of training in front-end development, specializing in JavaScript (ES6+), CSS, Bootstrap, TypeScript, GitHub and React.
- Developed "Bug Bounty Syria" as a final graduation project: A dual-sided platform connecting security researchers with companies to identify and fix software vulnerabilities.
- Received a recommendation letter for outstanding performance and distinction in the training program.

## Skills

---

**Web / Frontend & Backend:** React.js, Next.js, SaaS Architecture, Node.js, PWA, JavaScript, TypeScript, Bootstrap, Tailwind, CSS.

**Programming Languages:** C++, Java, C#, MATLAB, Python.

**AI & Data Technologies:** AI-Driven Development, AI Service Integration, Code Optimization & Debugging via LLMs, Git / GitHub (CI/CD), MySQL, MongoDB, Figma, Odoo, Microsoft Office.

**Management & Methodologies:** Agile Software Development (Scrum), Jira, Project Management.

**Soft Skills:** Quick Learner, Adaptability, Team Collaboration ,Problem solving.

**Languages:** **Deutsch** (Intermediate, B1 ÖSD ) | **English** ( Upper-Intermediate, B2 Level ) | .( **Arabic** ( Native

## Projects

---

### Bug Bounty Syria | [React.js, Mantine UI ]

**Jul 2024 - Oct 2024**

- Engineered an integrated platform connecting security researchers with companies to identify and patch system vulnerabilities.
- Designed and developed highly intuitive interfaces using Mantine UI, ensuring a seamless user experience (UX) for technical users.
- Ensured full responsiveness across all devices, focusing on accessibility and clean component architecture.
- Streamlined the reward and evaluation workflow through a secure and simplified frontend interface.

## Education

---

**Bachelor of Science in Software Engineering** | Homs University  
**Cumulative GPA :** 76,98% | Top 10%

**Sep 2020 - Oct 2025**

**High School Diploma** | Muhsen Abbas Secondary School  
**Grade:** 93,17% | 2702/2900

**Sep 2019 - Aug 2020**

## Additional Information

---

- Hands-on experience in computer hardware and software repair acquired over several years.
- Passionate about programming and continuous learning.
- Actively developing skills in front-end technologies and exploring new tools.
- My interests include chess, football, and tennis. I am also passionate about research, content creation, fast typing, and networking.
